

Coordinator: Jesenice Adult Education Centre

Title: Involvement of volunteers in working with migrants

Date and venue: 23 May 2017, Jesenice

Target group: migrants

Stakeholders: adult education institutions, social centre, Public employment service, NGOs, municipalities, migrants – participants in the Slovenian language course.

Content:

- Professional part: presentation of various examples of integrating volunteers into working with migrants in adult education centres and NGOs.
- Practical part: panel discussion and exchange of experiences and examples of good practice concerning the acquisition of basic skills and key competences of migrants.

Findings and Recommendations:

- Voluntary work must be organised.
- There is a great need for voluntary work but insufficient cooperation between different organisations.
- There is less funding for integration policies, making the integration of volunteers into working with immigrants very important for facilitating the integration of the latter into the local environment.
- A successful integration of immigrants requires cooperation and integration of different organisations in the local environment – an initiative to participate in project activities of various organisations.
